Community Acupuncture is Coming Soon!!!

Hello Everyone!

We (Eileen & Geoff) will soon be starting a community acupuncture practice in Hopkinton! We will be offering it in addition to our current individual treatments for people who would choose to try this option.

Why Community Acupuncture?

There are several reasons for this:

Cost - We will be charging a sliding scale fee of \$25-\$45 per treatment (you choose how much you can honestly afford) in an effort to make it possible for you to come with enough frequency to get the results you need. It is rare that acupuncture can "fix"

something with one treatment, and typically it will take a "course" of treatments, depending upon the severity, chronicity, and constitution of the individual case. This will be discussed with you at your first visit.

- **Accessibility** - It allows us to make acupuncture accessible financially to those who might otherwise not be able to budget this healing modality into their own or their family's life.

What is Community acupuncture?

It is a style of treatment that is used traditionally in China where treatments are given in a group setting. You will be fully clothed (we need access to your legs and arms) and most of the treatment will be given on the powerful points on your arms/hands and legs/feet.

Where will the treatments be given?

They will be in the larger of the two treatment rooms, and they will be on

zero-gravity reclining chairs, not tables, as you may be used to.

When will Community acupuncture treatments be available?

We will be offering certain days & times for community acupuncture treatments. They are yet to be determined. Availability will be by appointment. If there is increased need, we will consider expanding the community treatment hours.

How do I get started?

Send us an e-mail at info@rootandbranchom.com, or give us a call if you have any questions.

Please forward this to your friends to let them know that we're changing!!!
